Senior product manager looking for a permanent role, available now, in Paris or anywhere in France. B2B SaaS, with AI in how the work gets done. 27 engagements in 3 years for software companies and startups, after 10+ years in-house. I'm at my best when it's about simplifying tools that shouldn't be complicated.

Why a role now

Four years independent, in contexts with nothing in common (HR SaaS, industry, insurance, telecom). An engagement ends right where the decisions start to land. Looking for what comes next: one product, one team, over time.

Permanent role

Available now

Paris or anywhere in France

Senior or Staff PM

Individual contributor

B2B SaaS

27 engagements in 3 years

Lucca

HR software, 13 modules, 7800 clients. Design system, product creation, PLG, complex flow simplification. The salary review tool is now the sales demo feature. 200+ days.

Synaxe

Pivoted from a sensor overlay to a management and compliance tool for hazardous materials. Delivered mockups and specs. Six months.

Guinet-Derriaz 1912

Industrial group, 14 quarries, no IS. Built from scratch on €100k: product catalogue, sales and operations tools. One year.

UBAQ

Full platform audit: interviews, problem mapping, mental model diagnosis. Delivered correction mockups and revised roadmap.

Before that

Lucca Employee n° 10, 2011–2014

Created the Design department. Onboarding went from 3 days to 45 minutes. Started several products that became the Lucca suite.

Raised €100M · One Peak (2022)

Ornikar Employee n° 8, 2014–2016

Regulated market, nothing existed yet. Grew the product team, designed student and instructor flows, built the support team. Zero to 15,000 paying users in 18 months. Over one million sign-ups since.

Strategic Design Award (2015)

\$145M raised 2018–2021

monbanquet.fr Head of Product, 2017–2019

Designed the sales tool: custom quote in 30 min vs. days for competitors. Acquisition funnel +50%.

Acquired by B2B Food Group (2020)

zoneads1.com Head of Product, 2019–2020

1.2M visitors/month. Redesigned acquisition flows and CMS, data-driven decisions. Information architecture still in use today.

Acquired by hipto (2026)
