Product Advisor,

I step in when things stop moving.

HR | Industry | Supply chain | Corporate finance | Healthcare | Marketplaces

27 engagements in 3 years

Audits, strategic repositioning and executive coaching on shorter formats (fractional CPO). I strip back unnecessary rules and flows, align product, engineering and go-to-market on a deliverable sequence, and ship mockups or prototypes to unblock execution.

Lucca

200+ days across four business suites (payroll, time, training, talent). Unblocked product decisions stalled by org friction, working with BU heads across a 13-module HR suite (7,800+ clients). Simplified business rules and user flows. Advised on shared design system adoption.

Synaxe

Product framing, 6 months at 2 days/wk. Reshaped a construction-sector compliance tool into a management product, with no PM or designer in place. Scoped workstreams, sequenced delivery, balanced commercial commitments against technical feasibility.

Guinet-Derriaz 1912

Product & internal tooling, 1 year at 2 days/wk. Formalised the product catalogue and built sales/ops tools for a heritage stone manufacturer (~€10M revenue, 14 quarries, international ops).

UBAQ

UX audit and hands-on coaching. Platform diagnostic, friction mapping, UX and org recommendations. No in-house UX role. Recommendations fed into the navigation redesign.

Earlier roles

Lucca — **First UX Designer**, 2011–2014

Designed HR and time-management products. Reduced onboarding time by streamlining administrative flows in a product-led growth model.

Ornikar — **First Product Manager**, 2014–2016

0 to 15,000 paying users in 18 months in a regulated market. Focused on friction reduction over acquisition. The company later raised $120M.

monbanquet.fr — **Head of Product**, 2017–2019

Cut acquisition churn, built sales tooling (quotes in minutes vs days). Margin and lead-time tracking. Grew product team from 2 to 8.

zoneadsl.com — **Head of Product**, 2019–2020

Redesigned acquisition funnels and CMS. Analytics-led decision-making. Contributed to shifting a monolith toward product-oriented architecture.

Education

Le Wagon	Fullstack web development
Strate, Paris	MSc Industrial Design & Interaction
Grenoble EM	MSc Innovation Management
Saint-Jean de Douai	Classes préparatoires
