Staff Product Manager. Fifteen years in B2B SaaS product, almost always joining very early. What I do best is make an over-complicated product usable again. For the past two years I have worked with LLMs every day, built my own tooling with them, and trained non-technical teams to do the same.

EXPERIENCE

Independent PM

Six years as an independent, first on long engagements, then on five-to-fifteen-day interventions on products their teams could no longer move forward.

2020 - 2021

Mineral Expertise, design of a B2B marble-buying platform (the Chunk project), which introduced me to the industry and led to the next engagement.

2022

Guinet-Derriaz 1912, industrial marble group, fourteen quarries, ten million in revenue, no information system. Product master data, sales and operations tools built for €100k, one year at two days a week.

2023 - 2025

Lucca, HR software vendor, three years with the leads of each suite. The salary review went from twenty screens to three and now serves as the sales demo. Role administration, impersonation, design system.

2023 - 2024

Synaxe, field diagnosis showed the blocker was regulatory, not technical. The product pivoted to a compliance tool for hazardous materials.

and also

BMI System, GetPro, Odyssée Impact, Diduenjoy, PresenceDoc + training non-technical teams, including a finance department, to use LLMs daily.

Rungle

Cofounder and PM

2025 - 2026

Decision-support SaaS for e-commerce supply chains, built with an operations research engineer. Discovery with large accounts, framing, data model.

ZoneADSL

Head of Product

2019 - 2020

Telecom comparison site, 1.2 million monthly visitors on a monolith. Rebuilt the acquisition journeys and the CMS, introduced data-informed prioritisation, and moved the company onto a product organisation.

Monbanquet

Head of Product

2017 - 2019

Online catering business built on a network of independent artisans. Designed the sales tool that produces a bespoke quote in thirty minutes under margin constraints, versus several days for competitors. Acquisition funnel up 50%.

World tour

2016 - 2017

A year travelling across the Americas, Greece and Italy.
+ Le Wagon, full-stack development bootcamp

Ornikar

Product Director

2014 - 2016

Online driving school in a regulated market where nothing existed yet. Designed the learner and instructor journeys, built up the support team, prioritised by removing friction. Zero to 15k paying users in eighteen months.

Lucca

Design and UX

2011 - 2014

HR software vendor. Created the design and user experience function. Cut customer implementation from three days to a forty-five-minute onboarding, in a product-led approach.

EDUCATION

2006 - 2011

Grenoble École de Management, MSc innovation management

2009 - 2010

Strate, industrial and interaction design, dual degree

2004 - 2006

Saint-Jean de Douai, preparatory class for business schools
